BioOne on the Road in 2015

The BioOne team is traveling a lot this year and we’d love to meet with you. See our Global Exhibit Calendar on page 3 to see where we’ll be.

If you are attending a conference marked with an asterisk (*) on the calendar, please stop by BioOne’s booth to enter to win our new Adopt-a-Species Giveaway.

BioOne is partnering with the World Wildlife Fund to support threatened and endangered species. To enter the giveaway, fill out our entry form at the BioOne booth and choose from six species BioOne will adopt the species in the winner’s name and the winner will receive a WWF kit, including:

• photo and plush of the species you chose for adoption
• adoption certificate and species card
• WWF tote bag

Read the next issue of BioOne News in April to find our first round of winners and which species they helped adopt.

Find out more about Adopt-a-Species at: http://bio-one.co/b1Giveaway

New Linking Partner: CABI

BioOne is pleased to announce a new indexing partnership with CABI, the not-for-profit science-based development and information organization. To see a list of all our indexing partners visit: http://bio-one.co/1DDdSSA.
Some rhapsodize about April in Paris, but for me November offers the intoxicating aroma of roasting chestnuts, the taste of oysters fresh from Brittany, un express savored at a corner café, and all the sights and sounds that only the City of Lights can serve as the days become shorter and the trees along the Seine prepare for winter. As part of BioOne’s effort to make personal connections wherever we travel, I combined a trip to Paris in November to honor our Brazilian subscribers with visits to some of BioOne’s most important French publishers and institutional subscribers.

BioOne’s European Sales Manager Manisha Bolina organized a tight schedule that began with a visit with Clemence Moisy-Kirschbaum and Pamphile Isch, who focus on biology journals for the largest consortium in Europe, France’s COUPERIN. Fittingly, we met for lunch in the heart of the Latin Quarter, close to their headquarters at the Université de Paris VI. With their help, BioOne is extending its message to the relevant institutions amongst COUPERIN’s 240 members.

Catherine Fournier, head of the biology acquisition team at the prestigious Centre national de la recherche scientifique (CNRS), welcomed us in Nancy. The world’s largest research center, CNRS is responsible for serving 14,000 of France’s top scientists via their portal, BiblioVie. BioOne’s titles available in both the biology and ecology-environment sections of this portal are heavily used.

The Institut Pasteur, in contrast, is a private research organization, whose 1,000 researchers focus on some of the most pressing epidemiological challenges affecting humankind. According to Agnès Raymond-Denise, head of the Institut’s scientific media library, and her colleague Sandrine Royer-Devaux, the library has developed the capability to serve their community in real time, even in remote locations around the globe.

The Muséum national d’histoire naturelle (MNHN) was created in 1635 as a royal garden for the research and study of medicinal plants. Since its dedication as a museum in 1793, the MNHN has been a leading force in major scientific discoveries. BioOne is closely allied to both the Museum’s teaching and research objectives, for the library subscribes to BioOne Complete, and seven publications produced on the MNHN’s campus figure prominently in the collection. Aubierge Desalme, head of the library’s electronic collections, assured us that BioOne is an important resource for the MNHN’s graduate students of biology, zoology, paleontology, ecology, and sustainability. Manager of the Museum’s scientific publications Laurence Bénichou treated us to what any student of the natural sciences would revere as the best view in Paris. Her office at the top of the building was once home to Georges-Louis Leclerc, the Comte de Buffon and Jean-Baptiste Lamarck.

The Paris-based Organization for Economic Co-operation and Development (OECD) generously hosted the 2014 ceremony to celebrate the Brazilian Ministry of Education’s Coordenação de Aperfeiçoamento de Pessoal de Nível Superior’s (CAPES) Portal de Periódicos. BioOne is a proud participant and supporter of this electronic collection that receives 250,000 downloads daily from researchers in over 420 institutions. BioOne expresses its sincere gratitude to OECD’s Head of Publications Toby Green, CAPES President Professor Jorge Guimarães, and CAPES Coordinator General Professor Elenara Chaves Elder de Almeida for their hospitality. November in Paris met and exceeded expectations.

Susan Skomal, PhD.
BioOne President/CEO
Meeting registrations and travel grant applications are being accepted for the 2015 BioOne’s Publishers & Partners Meeting, to be held in Washington, DC on Friday, April 24, 2015.

This annual, collaborative event provides an open forum for discussion among journal publishers, librarians, and leading industry service providers, and enjoys a robust turnout each year. **Attendance for this event is free**, but pre-registration is required. We encourage participation by anyone interested in contributing to a thoughtful dialogue on the future of scholarly communications.

### Agenda

We are proud to present a program featuring timely topics recommended by community members. Ample time has been afforded for Q&A, enabling a highly interactive format. Our preliminary agenda is as follows:

**8:30–9:00 am**
Check-in / Continental Breakfast

**9:00–9:45 am**
**Welcome and BioOne Update**
Dr. Kent Holsinger, Chair of the Board of Directors, BioOne, and Dr. Susi Skomal, President/CEO, BioOne

**9:45–10:45 am**
**Beyond Authorship: Attribution, contribution, collaboration, and credit**
Dr. Amy Brand, VP Academic & Research Relations, Digital Science

**10:45–11:00 am**
Break

**11:00–12:00 pm**
**Credentialing in a Dysfunctional Market: Lessons learned from Elementa’s first year**
Liba Hladik, Manager of Digital Publishing Operations, **Elementa: Science of the Anthropocene**

**12:00–1:00 pm**
Lunch

**1:00–2:00 pm**
**Birds of a Feather: How two 130-year-old ornithology journals teamed up to cut costs and publish weekly**
Kathleen Erickson, Managing Editor, Central Ornithology Publication Office for *The Auk* and *The Condor*

**2:00–2:15 pm**
Break

**2:15–3:15 pm**
**ReadCube: Meeting the needs of the modern researcher**
Alex Hodgson, Director of Marketing, ReadCube

**3:15–3:30 pm**
Closing Remarks

***

**Online registration**
Register online and learn more at [http://bio-one.co/b1PPM2015](http://bio-one.co/b1PPM2015). There is no cost to attend, and all meeting materials, as well as breakfast and lunch, are provided for participants. Our sincere thanks to our generous meeting sponsors: Allen Press, Aries Systems, Atypon, Innodata, and PCG.

Space is limited, so please reserve your spot soon. Email Maeg at maeg@arl.org with any questions.

**Travel Grants**
Through the Howard Goldstein Travel Grant Program, we are very pleased to offer a limited number of travel stipends designed to defray the cost of travel for qualified applicants. Applications are available for download on our website and due to BioOne by February 25.

We hope to see you in April!
BioOne sees sustainable scholarly publishing as an inherently collaborative enterprise connecting authors, nonprofit publishers, academic institutions, research libraries, and research funders in the common goal of maximizing access to critical research.
